TWO CITIES PIZZA

CHI

The New York and Chicago Experience

What you're about to experience began with two lifelong best friends—Zach and Sean—and two cities, each city with its own rich pizza tradition. While enjoying a slice of pizza in Chicago, Sean and Zach found themselves at the beginning of the story, and in the thick of the great pizza debate: New York thin crust versus Chicago deep dish. Drawn to the way each city created something unforgettable through pizza, the soon-to-be founders developed an obsession. From that moment they endeavored to create a place where people could experience both styles on the same table. By 2015, after years of dreaming and developing, the first Two Cities Pizza Company opened, and the New York and Chicago experience was born.

Try Our House Beer!

A delightfully crushable pale ale worthy of the two cities it represents. Two distinct cities require two unique hops: Saphir and Strata. The result is a delicious dance of spice, floral, and wide range of fruits including fresh and dried tangerine. The semi-dry finish has notes of subtle hops that add to the complexity.

TWO CITIES AT CITY HALL

The canvas for our first location, a historic City Hall building was the perfect setting for the idea of Two Cities to become a reality. Built in 1939, the historic art deco building in Mason, Ohio, was home to our vision of delivering two great styles of pizza, beginning in 2015. The next chapter of the Tale of Two Cities has brought them to Georgia.
